

## Wines of Great Britain (WineGB) Ltd Membership Fees and Benefits 2025

### Grower and Producer Members

For grower and producer members the fees are based on the higher of the band for hectareage of vines planted and average of the last 3 years' wine production. The table below details the fee bands.

All members must join their local geographical region (regional fees are detailed below) and may join more than one region if they wish.

For those members who produce wine, or who have wine produced for them on contract, the Annual Fee payable is the higher of their Hectareage Band and Production Band. For those members who grow grapes but who do not make wine and do not have wine made for them on contract, the fees are capped at Band 5.

Each member is entitled to a number of subscribers who may access the Members Area of the WineGB website and are enrolled in the Forum. The entitlement is determined by the fee band (capped at the band 5 level for Growers).

## Wines of Great Britain (WineGB) Ltd Membership Fees and Benefits 2025

### Associate Members

Associates are members of WineGB who neither grow grapes nor make wine but who have a strong interest in the industry. Trade and Student Associate subscribers have access to the Members Area of the WineGB website and the Forum.

Individual Associates have read only access to the forum but cannot access the members area of the website. All Associates must join their local geographical region (regional fees are detailed below), although Trade Associates who operate on a national basis may opt out of joining a region. Any associate may join more than one region if they wish. Students are not charged any regional fees.
